## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-29 and 61-65, drawn to a handheld unit for collecting images of cones, classified in class 396, subclass 17.
  - II. Claims 30-41 and 66-67, drawn to a system for storing images, classified in class 382, subclass 305.
  - III. Claims 42-47, drawn to a system for displaying images, classified in class 345, subclass 1.1.
  - IV. Claims 48-60, drawn to a system for collecting, storing and displaying images, classified in class 382, subclass 128.
2. Inventions I, II, III and IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because Claim 48, which is the broadest combination claim, does not require the particular of either Claim 1, Claim 30, or Claim 42, the broadest subcombination claims. The subcombination has separate utility such as an image collecting unit for group I, an image storing system for group II, and an image displaying system for group III.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tom Y Lu whose telephone number is (703) 305-4057. The examiner can normally be reached on 8:30AM-5PM.
